

ERIC A. ABROKWAH

FULL STACK DEVELOPER

Amsterdam, Netherlands | 06-27350387 | eric.abrokwah.dev@gmail.com | github.com/lcrenice | www.ericabrokwah.dev | linkedin.com/in/eric-abrokwah-195b12263/

PROFILE

Full Stack Developer with a BSc in ICT who builds backend services, web applications and API integrations. I work mainly with PHP, JavaScript, Node.js, TypeScript, SQL, and REST APIs, with additional experience in C#, Python, and Java. I enjoy turning requirements into reliable systems, from data modelling and application logic to testing and deployment.

EXPERIENCE

Full Stack Developer Intern — Eagerly

2026

Graduation internship

- Designed and implemented a provider independent event synchronization platform for WordPress, centered on a canonical Event Core Model.
- Built provider adapters, API clients and mappers so external ticketing integrations stay separate from application logic.
- Added scheduled and webhook driven synchronization, relational persistence and WordPress integration.
- Exposed synchronized events to headless frontends through WPGraphQL and supported the platform with automated and acceptance tests.

PHP · WordPress · MySQL · REST APIs · WPGraphQL · Composer · Webhooks · Cron · PHPUnit

Full Stack Development Intern — Rive Droite Groupe SA

2023 - 2024

- Built frontend features for a stock-management dashboard used in an international business environment.
- Connected dashboard data to the interface through Node.js and API integrations.

Node.js · JavaScript · HTML · CSS · REST APIs

Backend / Full Stack Developer — Dijkstra & van Puffelen

2022 - 2023

Comakership

- Led backend work on a full stack application for time registration, account management and payment-related workflows.
- Designed PHP backend functionality, database structure, authentication and business logic, and contributed to frontend quality.

PHP · SQL · JavaScript · HTML · CSS

Security Officer – Workrate Security

2023 - Present

- Part-time datacenter security role alongside ICT studies and software development work, operating under strict protocols and procedures.

TECHNICAL SKILLS

BACKEND	PHP · Node.js · Express · REST APIs · API Integrations · SQL
FRONTEND	JavaScript · TypeScript · React · React Native · Next.js · HTML · CSS · Tailwind CSS
LANGUAGES	JavaScript / TypeScript · PHP · Python · C# · Java
DATA & APIS	MySQL · SQL · Entity Framework · REST · GraphQL
INFRASTRUCTURE	Docker · Git · GitHub · GitHub Actions · CI/CD · Composer
TESTING	PHPUnit · API Testing · Automated Testing

SELECTED PROJECTS

Event Sync Platform — Graduation Project

2026

Provider-independent synchronization system that normalizes event information from multiple ticketing systems into one canonical model for WordPress and headless applications.

- Designed a layered architecture for provider adapters, synchronization, persistence, GraphQL integration and automated testing.

PHP · WordPress · MySQL · REST APIs · WPGraphQL · PHPUnit

Fitness Leveling — 1st Place - School Competition

Sep 2024 - Jan 2025

Cross-platform fitness application with personalized daily quests, progress tracking, streaks and social competition, built with a two-person team.

- Implemented OpenAI-powered quest generation, backend architecture, scheduling logic, API integration and testing.
- Contributed to the React Native app and CI workflows; the project achieved 1st place in the school competition.

React Native · Expo · Node.js · Express · MySQL · OpenAI · REST APIs · GitHub Actions

Zoo Management System — Software Engineering Project

ASP.NET Core application for managing zoos, animals, enclosures and categories through a REST API and web interface with relational persistence.

- Implemented REST endpoints, MVC functionality, Entity Framework data access, relational modelling, API documentation and automated tests.

C# · ASP.NET Core · Entity Framework · REST APIs · SQL · MVC · Testing

EDUCATION

BSc ICT - Software Engineering — Windesheim University of Applied Sciences, Almere

2026

Software Engineering specialization with a focus on full-stack development, backend systems, APIs, databases and software architecture.

MBO Level 4 - Software Developer — ROC MBO College Hilversum

2021

MAVO - Technology — Scholengemeenschap Reigersbos

2018

EARLIER EXPERIENCE

Web Development Intern — RockIT B.V.

2021

- Developed and maintained websites using PHP, HTML and CSS, working independently on smaller client projects.

Web Development Intern — Copavo B.V.

2020 - 2021

- Built and maintained WordPress websites using PHP and frontend technologies, with attention to usability and visual implementation.
